

I am concerned about the lobby of the NAB to block traffic and weather broadcasts on xm satellite radio. Satellite radio provides quality and variety not available elsewhere. I pay for these services and it should not be up to the NAB to dictate what I am permitted to hear. I respectfully urge the FCC to reject NAB's petition 04-160, and to support xm's ability to provide the kind of programming I demand and deserve from a pay service. Thank you for your attention.
